ADDITIONAL COMMENTS

1. **For the permit renewal, please submit a landowner's authorization signed by all parties listed on the deed and also a signed/dated nutrient management plan.**
2. The fields need harvested as per the approved nutrient management plan. Weed control is needed – contact your extension agent for advice.
3. No sign of recent application and no odor noted.
4. The access road is adequate and the required signs are posted.
5. Several of the field markers are too short (will not be visible when the grass is tall) and need to be replaced. There also appears to be missing markers on the fields.
